

## Offgas compressor (under construction)

For this project, CSH will be providing a containerized off-gas compressor package designed to eliminate flaring. The design, engineering, construction, and testing of the package, along with certification in accordance with ATEX, PED, and specific customer requirements, will be carried out in-house.

<b>Customer</b>	Noordgastransoort b.v.
<b>End user</b>	NGT
<b>Location</b>	The Netherlands
<b>Year of delivery</b>	2025
<b>Dimensions</b>	20-foot-high cube container
<b>Weight</b>	11.000kg
<b>Type compressor</b>	Corken Oil free, 2-stage, 47kW reciprocating compressor
<b>Certification</b>	ATEX, Zone 2, Gas Group IIA
<b>Specific features</b>	LCP panel (ATEX) in container
<b>System design</b>	Capacity 150-500 Nm <sup>3</sup> /hr, Inlet pressure between 6 - 8 (g), outlet pressure between 62 - 70 bar (g)
